Your own personal **watercraft**, Lift Foils are the hottest water toy to have on your superyacht, able to glide over the water at speeds of up to **56 kilometres an hour**. And now there's a **new board** to add to your collection: the **LIFT3 F**. Made out of a proprietary fibreglass blend and available in two different sizes, this board is designed for beginner eFoilers or families. What's more, it's powered by a lithium-ion battery for **silent, environmentally-friendly** use. Sounds like the **perfect accessory** to Mediterranean cruising this European summer.
