WHAT TO DO NOW & WHERE TO GO NEXT

The Excellence V Hits the Market

In the world of super yachts, the trend has increasingly been that bigger is better, and the **Burgess Yachts' Excellence V** is no exception. At a length of 199.9 feet, the Excellence V is entering the sales market as one of the few high pedigree yachts available for sale in this size sector of the market, boasting accommodation for 14 guests, five decks of living space, and state-of-the-art sailing technology. Custom built for a yachting connoisseur who has built a hugely successful charter following of his yachts over the last 30 years, Excellence V was built with an acute understanding of the market and what makes a yacht a success. With an enviable charter record and transatlantic range, Excellence V is a stunning example of best-in-class Northern European yacht building.

Built in 2012 by the world-renowned German shipyard Abeking & Rasmussen, Excellence V combines a traditional sailing aesthetic

with ultra-modern technology for a premier yacht that has been lovingly maintained with regular upgrades since inception. With an exterior steel hull, aluminum superstructure, and teak decks providing panoramic views, the builders achieved additional key features, including: a central elevator servicing all five decks encircled by a dramatic central staircase, a dedicated cinema, a waterfront gym, an oversized beach club with multiple access points to the sea, and a full owner's deck and multiple outdoor lounge areas with spa pools.

Excellence V's sweeping exterior lines complement the vastness of the striking interior, designed by the award-winning team at Raymond Langton Design. Sleek, modern designs are accented by mahogany touches to create a rich, soft atmosphere for guests, with an upper-deck master suite complete with a study, panoramic windows, and a private whirlpool lounging area. Additional rooms include several saloons, formal and *al fresco* dining spaces, and deck lounge areas. Guests can enjoy an inventory of watersports equipment on board, including full scuba diving gear. **For inquiries, call 305.672.0150.**
