NOW IN O.C.

FEELING NAUTI It's all aboard in Newport Beach where Sun Country Yachts (suncountrymarinegroup.com) has dropped anchor on Pacific Coast Highway with a new 4,000-square-foot showroom and partnership with the Ferretti Group (ferrettigroup.com), an Italian shipbuilding brand specializing in luxury motor yachts. With more than 650 feet of dock space, cruisers by Ferretti, Pershing and Riva are displayed in all their glory, allowing shoppers to set sail while taking in posh amenities. "We've chosen to work with the Ferretti Group in an effort to elevate the yachting experience here in Orange County," says Mike Basso, Sun Country Marine Group's president of operations. "These yachts are more sleek and technologically advanced than what we normally see cruising in the area. They are incredibly well-built and integrate the same creature comforts you prioritize in your own home." Try the Pershing 5X, the 54-foot stunner shown here, which is easily-manned by a single driver and is begging to make waves on your next trip to Catalina Island. "The 5X features all the cutting-edge technology that is integrated into the larger models in the Pershing lineup, and boasts the ultraluxurious interiors and sleek exterior design that is synonymous with the brand," notes Basso. "Equally satisfying, the 5X will turn heads in the harbor as you cruise around on a sunny Newport Beach day." —Allison Mitchell

With no current waitlist, Ferretti Group's Pershing 5X can be yours for the summer at Newport Beach's new Sun Country Yachts.
